22. ENGINEERING DIVISION LOGNOTE - 30 May 1985

WOOD - INTERNET

[ ] Office of Logistics, representing the group that is handling STAT acquisition of land for the Washington INTERNET terminal called this date to report on progress. They had just met with the Focal Point Officer (FPO), at the DOD on the subject of the Quantico site. [ ] report was STAT, quite positive and he stated that apparently the only remaining step was contact with the current Base Commander. He thought approval might be forthcoming within the next few days.
